

I am writing to ask that you please keep K-Love radio on air. K-love is one of the best radio stations that I have encountered - it is such an encouraging station. When I was going through a hard time, one of the pastors associated with the station personally wrote to me and told me I could call anytime that I would need someone to talk to. I have NEVER encountered such amazing people on the radio that would do that. K-Love has helped me when I have been in the dumps, and they have also been there to help celebrate my joys. Without this station, I do not know where I would be - their songs help me (and the people around me) immensely. We live in a society where most stations are singing about killing, hating other people, having premarital sex, encourages drugs etc. and this station is the one station that sings songs about peoples struggles, celebrating the happy moments, crying out, and getting help - these songs encourage, inspire and uplift. I am begging you to keep K-Love on the air - this station is one of the best things that have happened in a long time!!
